Vladislav Sazonov
Frontend engineer

About me

I can create web-apps with
React. I can implement beautiful marketing
pages, websites using modern CSS
or CSS-in-JS like Styled Components.
I have worked with
Next.js, Gatsby.js, Redux, Firebase,
Puppeteer, Prisma

Why i am a good fit?
I have a natural curiosity, i feel
excited working in the product/service
company. I like web.
I like how web is evolving.
I like implementing clean and convenient UI,
talking to users, getting feedback.
I am a teamplayer, good
communicator and i always want to
make something useful for people.
